

# KNCV STRATEGIC PLAN 2026-2030

**WHO ARE WE:** KNCV is an international non-profit organization dedicated to fighting tuberculosis (TB) and related health challenges. Founded in 1903 as a collaboration of local TB elimination initiatives in the Netherlands, KNCV has over 120 years of expertise in TB prevention and care, contributing to TB pre-elimination in the Netherlands and advancing global evidence, policy, and program implementation.

### OUR PURPOSE

Our purpose is to contribute to a world free of tuberculosis and related health challenges

### OUR MISSION

Our mission is to save lives and end human suffering through the promotion of health and the global elimination of tuberculosis and related health challenges

### KNCV STRATEGIC VISION

Accelerate the global fight against Tuberculosis and related health challenges by catalyzing uptake and scale-up of cutting-edge innovation, people-centred and country-led action, anchored in an equal-alliance network.

### KNCV COMPARATIVE ADVANTAGES

Strong In-Country Presence and Network organization

Deep TB expertise and global leadership

Proven Project Implementation at Scale

Geographical Reach and Versatility

Patient-Centred & data driven

Implementation Science and Introduction of innovation/ new tools

Trusted Partner of Ministries of Health

### KNCV CORE VALUES

People-focused

Results-driven and guided by impact

Reliable and accountable

Flexible, agile and resilient

Powered by responsible innovation

Engaged in synergistic partnerships

## ALL ABOUT TB in a rapidly changing environment.

Accelerate the Elimination of TB and related Health Challenges in the Netherlands, Europe and globally

### A. Overall Approach

KNCV drives sustained and meaningful change by strengthening health systems and supporting multisectoral collaboration engaging governments, communities, and people affected by TB through strategic planning, as well as evidence-based policy development and implementation.

Demonstrating cutting-edge innovation

Catalyzing people-first and country-led action

### B. Strategic Priority

The most focused areas of KNCV's approach through which it is uniquely positioned to add value are informed by impact, need, competencies, and country priorities.

Implementation Science, Innovation, Demonstration & Scale Up

Health & Community System Strengthening

Knowledge / Capacity Exchange Mechanism

### C. Strategic Program Areas

KNCV has a meaningful role to play in several topical areas, leveraging its longstanding expertise and exploring new frontiers aligned with the drivers of the TB epidemic and other related health challenges. These areas include:

Screening & Diagnostics

Prevention Treatment & Post TB Lung Health

Surveillance & Digital Health/AI

CRG & Stigma

AMR/PPPR Health & Climate Nutrition

### D. Foundational Enablers

The foundations that will enable KNCV to deliver on its mission are:

Equal-alliance network

Diversified funding

Participatory Monitoring, Evaluation, and Learning

AI and productivity enhancement technology

Proactive communications

Multi-disciplinary teams

### GET TO KNOW THE EQUAL ALLIANCE NETWORK

Scan to read more

**KNCV Global anchors** the global strategy, brand, and technical thought leadership.

**National Entities support** sustainable, country-owned programming grounded in local priorities while upholding KNCV values and rigor.

**Independent Affiliate Partners** to enable activities in new geographies and domains without requiring new country branches, through collaboration with mission-aligned organizations.

### WHAT ABOUT TB+?

Scan to read more

**TB+** is KNCV's integrated program that expands its focus beyond TB to include lung health and related conditions, leveraging its TB expertise and tools to address broader infectious disease challenges while strengthening TB care and prevention.
